# Call for Posters and Work In Progress - MobiCASE 2016
November 30, 2016 – December 1, 2016. Cambridge, UK

## Scope

**The International Conference on Mobile Computing, Applications, and Services (MobiCASE)** is a premier scientific forum that brings together academic researchers and industrial professionals to advance research in the area of Mobile Computing, Applications, and Services. . Work that is best suited for a poster submission includes – but is not limited to – preliminary results, provoking and current topics, novel experiences or interactions that have not been fully tested but show great promise, summaries of small-scale studies, design explorations etc. Posters provide the opportunity for researchers to get feedback on early-stage work, discuss potential collaborations and discuss the burning issues in **MobiCASE** in an informal manner with the larger **MobiCASE** community. Poster abstracts appear in the ACM DL. Copyright is retained by the authors, and the material from them can be used as the basis for future publications as long as there are "significant" revisions from the original. The areas addressed by the Posters Track are the same as the main conference, including Mobile Computing, Applications and Services.

## Topics

Topics of interest include, but are not limited to:

Innovation in Mobile Apps, Networking, and Computing

User Interfaces and Interaction Technologies for Mobiles

Location and Context Sensing/Awareness

Mobile Computing and Internet of Things

Smartphones and Wearable Platforms

Mobile Cloud Computing and Big Data

Mobile Security and Privacy

Mobile Data Analytics and Modeling

Support for Social Networks and Mobile Web

Energy Efficiency in Mobile Systems Design

Intelligent Vehicular and Drone Systems

Infrastructure support for Mobile Computing

Resource Management for Mobile Systems

Mobile Crowdsourcing

Artificial Intelligence for Mobile and Ubiquitous Computing

Mobile Development Tools and Testing MethodologiesnNiUnCeXe

Mobile Computing Support for Ubiquitous Computing

Mobile Services and APIs

Novel Software Architectures for Mobile Devices

## Submissions

All poster submissions must include a paper in the ACM double column format. The page limit is 2 pages. Submission guidelines and detailed instructions in the Author's Kit section.

http://mobicase.org/2016/show/authors-kit

The review process will be single blind and submissions must *NOT* be anonymized. Submissions need to be submitted via the Easychair conference system:

https://easychair.org/conferences/?conf=mobicase2016postertr

Authors of full papers accepted to the main conference track are encouraged to take advantage of the poster and demo session as an opportunity to foster further discussion and exposure for their work. Poster and demo paper submissions associated with an accepted full paper will

undergo a fast-track peer review.

# Reviewing

Posters will be reviewed by members of the **MobiCASE** Poster Session Committee. Confidentiality of submissions is maintained during the review process. All rejected submissions will be kept confidential in perpetuity. All submitted materials for accepted submissions will be kept confidential until the start of the conference.

# Presentation at the conference

Upon acceptance you should prepare your poster in order to effectively communicate your research problem, techniques, and results, highlighting what is novel and important about your work. For each accepted poster, at least one author must register for the **MobiCASE** 2016 conference by the early registration deadline. During a dedicated poster session, authors will have the opportunity to accompany their posters, present and discuss them with conference attendees. The posters are recommended to be in A0 or similar format (84cm x 119cm / 33 x 47), and must be in portrait orientation. Authors are expected to bring the accepted posters to the conference site with them and be present throughout the poster session.

# Final submission

Please submit your camera-ready version without any copyright notice. Subsequently, ACM will send you a copyright form, which you have to complete. Once completed, we will provide you with the new copyright information to be put into your paper. You can then submit the final version (including the new copyright notice) through the submission system.

**Important Dates**
· Poster Submission Deadline (Extended): October 10, 2016

- Acceptance Notification: October 17, 2016
- Camera-Ready Version: October 21, 2016

**MobiCASE Poster Chairs**
**Akhil Mathur (Nokia Bell Labs) & Johannes Schöning (Hasselt University)**
